

GEORGIA BOARD OF PHARMACY
Conference Call
2 Peachtree Street, NW, 6th Floor
Atlanta, GA 30303
April 15, 2020
9:00 a.m.

The following Board members were present:

Lisa Harris, President
Mike Faulk, Vice-President
Carrie Ashbee
Michael Azzolin
Michael Brinson
Hal Henderson
Bill Prather
Dean Stone

Staff present:

Tanja Battle, Executive Director
Eric Lacefield, Deputy Executive Director
Dennis Troughton, Director, GDNA
Michael Karnbach, Deputy Director, GDNA
Max Changus, Assistant Attorney General
Kimberly Emm, Attorney
Brandi Howell, Business Support Analyst I

Visitors:

Stephen Snow, BSL
Lauren Pollow, JL Morgan
Greg Reybold, GPhA
Helen Sloat, Nelson Mullins
Mike Chavez, Publix
Margie Miller, Augusta University
Shauna Markes-Wilson, Walgreens
Travis Clark, CAPS Norcross
Amanda Roberson, Eldercare
Stephanie Kirkland, Eldercare
Becca Hallum, GHA
Diane Sanders, Kaiser Permanente

Open Session

President Harris established that a quorum was present and called the meeting to order at 9:01 a.m.

Approval of Minutes

Mr. Stone made a motion to approve the Public and Executive Session minutes from the March 4, 2020 meeting, and the minutes from the March 13, 2020 Emergency Conference Call, March 18, 2020 Emergency Conference Call, March 23, 2020 Emergency Conference Call, March 30, 2020 Emergency Conference Call and March 31, 2020 Emergency Conference Call. Mr. Henderson seconded and the Board voted unanimously in favor of the motion.

Report of Licenses Issued

Mr. Prather made a motion to ratify the list of licenses issue. Mr. Stone seconded and the Board voted unanimously in favor of the motion.

Petitions for Rule Waiver or Variance

The Board discussed rule petitions submitted by Kaiser Permanente Alpharetta Med Office, PHRE007850, Kaiser Permanent Athens Pharmacy, PHRE009793, Kaiser Permanente Brookwood Pharmacy, PHRE008700, Kaiser Permanente Cascade Med Office Pharm, PHRE007149, Kaiser Permanent Conyers,

PHRE009716, Kaiser Permanente Crescent Center, PHRE007007, Kaiser Permanente Cumberland Med Offices, PHRE007009, Kaiser Permanente Decatur Pharmacy, PHRE009629, Kaiser Permanente Douglasville Pharmacy, PHRE009688, Kaiser Permanente Fayette, PHRE009731, Kaiser Permanente Forsyth Pharmacy, PHRE009584, Kaiser Permanente Glenlake Central Pharmacy, PHRE007915, Kaiser Permanente Gwinnett Central Pharm #7147, PHRE007776, Kaiser Permanente Henry Pharmacy, PHRE008647, Kaiser Permanente Holly Springs Pharmacy, PHRE009659, Kaiser Permanente Lawrenceville, PHRE009655, Kaiser Permanente Newnan Pharmacy, PHRE009710, Kaiser Permanente Panola Med Off Pharm, PHRE007143, Kaiser Permanente Sandy Springs Pharmacy, PHRE009952, Kaiser Permanente Snellville Pharmacy, PHRE009686, Kaiser Permanente Medical Pharm-Corp, PHRE007139, Kaiser Permanente Stonecrest Medical Center, PHRE009408, Kaiser Permanente Sugar Hill Buford, PHRE009386, Kaiser Permanente/Townpark Pharmacy, PHRE007745, and Kaiser Permanente, PHRE009118. Ms. Emm stated that each facility petitioned for the variance of Rule 480-36-.02(2) and that Emergency Rule 480-36-0.36-.08 Remote Order Verification for Retail Pharmacy Permits and the Governor's Executive Order dated March 31, 2020 temporarily replaced Rule 480-36-.02. Mr. Faulk made a motion to deny the rule variance petitions. Mr. Prather seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition submitted by Coliseum Northside Hospital, PHH006333. Ms. Emm stated that the petition is incomplete as the specific rule from which the waiver is requested was not indicated on the form. Additionally, she suggested they review the amendment made to Rule 480-13-.05 which is currently in effect. Mr. Stone made a motion to deny the rule waiver petition. Mr. Prather seconded and the Board voted unanimously in favor of the motion.

Correspondence from Jason Elliott

The Board considered this correspondence from Mr. Elliott asking if a non-U.S. licensed physician can receive medications from his company. Mr. Stone made a motion to direct staff to respond to Mr. Elliott by referring him to Rule 480-7-.03(7)(g) which states, *“For each person or firm, whether located inside or outside the State of Georgia, to which a drug wholesale distributor, located inside the State of Georgia, sells to, ships to, delivers to, or otherwise distributes drugs to, such drug wholesale distributor shall request and maintain a copy of that person or firm's current license or permit which authorizes them to purchase, buy, receive, or otherwise possess drugs.”* Mr. Henderson seconded and the Board voted unanimously in favor of the motion.

Correspondence from Angelo Cifaldi

The Board considered this correspondence from Mr. Cifaldi regarding his client, RXWorld, Inc., an online broker of prescription medications that facilitates transactions from business to business. In his inquiry, Mr. Cifaldi asks if his client is required to obtain a license or permit with the state of Georgia for the proposed conduct provided in his letter. Mr. Prather made a motion to direct staff to respond by stating that Georgia law and rule include brokers in the definition of a wholesaler. As such, the Board states that a wholesale distributor license would be required based on the information provided. Ms. Ashbee seconded and the Board voted unanimously in favor of the motion.

COVID-19 Testing

Mr. Greg Reybold was present on the videoconference and spoke to the Board regarding this matter. Mr. Reybold stated that a letter was sent to Commissioner Toomey on 04/10 regarding the U.S. Department of Health and Human Services 04/08 guidance authorizing pharmacists to order and administer COVID-10 tests. He stated that COVID-19 testing is a covered counter measure. He stated the federal guidance is significant and says pharmacist can conduct any test under emergency use authorization. He stated there are only three tests approved for point of care. Mr. Reybold stated that he wanted to bring to the Board's attention so it would know it is on the radar. He stated that he does not know if there is an action item assuming the Board agrees that the Emergency Preparedness Act preempts that testing scope of practice.

President Harris asked how the sample is obtained. Mr. Reybold stated that there are a variety of tests. He stated one is a nose swab and there is a saliva based abilities test. President Harris asked if they were free and how would the pharmacies be reimbursed for these? Mr. Reybold responded by stating that is not something they have looked at directly. After further discussion, Mr. Prather stated that he believes the Board should do whatever is necessary to show the Board of Pharmacy is fully supportive of pharmacists doing these tests under these circumstances. Mr. Azzolin commented that given the federal law allows this and preempts state law during this time, the Board of Pharmacy needs to acknowledge that it supports this. Mr. Stone agreed. Mr. Azzolin asked if it can be noted that the Board of Pharmacy agrees with the federal preemptive law associated with this testing. Mr. Changus responded by stating this issue of preemption can take a long time to research. He stated that he thinks there is something in the federal act that says the state law may be preempted, but whether it can totally preempt state licensure laws is another question. He stated that he does not see any need for the Board to object as there is no violation of the Pharmacy Practice Act. Mr. Changus stated that it would be an acknowledgement that the Board of Pharmacy agrees with the information as provided by the Georgia Pharmacy Association and commends its efforts to assist in this crisis. As such, the Board expressed, without objection, its support of the guidance from the US Department of Health and Human Services authorizing pharmacists to order and administer COVID-19 tests pursuant to the declaration of emergency under the Public Readiness and Emergency Preparedness Act.

Georgia Drugs and Narcotics Agency – Dennis Troughton

Director Troughton reported that GDNA is currently conducting inspections for new pharmacies only. Director Troughton stated that agents are practicing social distancing and other safety measures. He also reported that agents are responding to complaints pertaining to impairment and diversion. Mr. Brinson commented that from what he is hearing from colleagues, they have been nothing but complimentary of GDNA. He stated that he appreciates everything GDNA is doing. Director Troughton stated that GDNA’s goal is to be visible in aiding and providing information. President Harris commented that GDNA has been working very hard and that she appreciates all they are doing.

Attorney General’s Report – Max Changus

Mr. Changus reported that his colleagues, Elizabeth Simpson and Cara Lugo, were participating in the videoconference. He stated that they have been a huge help in addressing the Board’s cases.

Executive Director’s Report – Tanja Battle

Correspondence from Lisa Durden: Ms. Battle discussed this correspondence requesting the Board review and consider whether or not it needs to make any exceptions to its continuing education requirements given the current situation as continuing education will be due at the end of the year. President Harris asked the members if they feel adjustments need to be made. Mr. Brinson responded that the Board should give it another month and revisit this matter at its next meeting. Mr. Azzolin commented that there are no mandatory “in person” requirements. He suggested notifying the Governor of such as other boards do have that specific requirement. Mr. Stone agreed with Mr. Azzolin. Ms. Battle stated that she would be happy to share that information with Ms. Durden.

Continuing Education Report: Report presented. Mr. Brinson made a motion to ratify the below continuing education program approved since the previous meeting. Mr. Stone seconded and the Board voted unanimously in favor of the motion.

Date of Program	Hours	Sponsoring Group	Program Title	CE Code
4/1/20 – 12/31/20	2	The Medical Center, Navicent Health	Family and Personnel Requirements for Sterile Compounding	2020-0004
4/1/20 – 12/31/20	4	The Medical Center, Navicent Health	2020 Update: Annual 797 Competency Evaluation for Pharmacists and Technicians	2020-2005

Mr. Prather made a motion to deny the course titled, “SelfCare for Healthcare-Your Guide to Physical, Mental and Spiritual Health” submitted by LeAnn Thieman. Ms. Ashbee seconded and the Board voted unanimously in favor of the motion.

Correspondence from Dr. Traci Franklin: Ms. Battle discussed this correspondence requesting the Board require a human trafficking course be mandatory continuing education for pharmacists. The Board recommended directing staff to respond by requesting Dr. Franklin provide information on any available courses for the Board to consider.

Out of State Patient Specific Shipments Into Georgia: Ms. Battle stated that the board office has received requests concerning out-of-state patients where the patients have been flying out to a location for a research drug, but now are unable to do so because of the public health crisis. She stated that currently, shipping directly to patients in Georgia requires a non-resident pharmacy permit. Ms. Battle stated there have been other situations concerning college students being unable to get their medicines shipped here. Ms. Battle asked if the Board would be inclined to make accommodations for patients who, for whatever reason, needed their meds shipped here by a pharmacy who had no other patients in Georgia. President Harris responded by stating that she would love to accommodate them, but she is unsure as to how that would work. Director Troughton commented that the physician can still send an electronic prescription for a controlled substance and they can mail in a hard copy of the prescription or phone it in. He further stated that in this case, as long as the physician has the authority to prescribe that drug, he/she can phone it into the Georgia pharmacy. Director Troughton stated that there are some alternatives. He continued by stating that the worst-case scenario would be if GDNA obtains information that meds were shipped directly to a patient from an unlicensed non-resident pharmacy, GDNA can investigate determination. Director Troughton stated that he, Ms. Battle and Ms. Emm can communicate that there are options that are available to anyone who inquires.

Licensure Exams: Ms. Battle reported the number of temporary licenses that have been issued to date (four temporary pharmacy interns; 29 temporary pharmacy technicians; 31 temporary pharmacists). She stated that all of the temporary pharmacists were licensed in another state. She explained that very soon the board office will start receiving letters of graduation and the current rule states an applicant is eligible for a temporary license, minus the exam, if the applicant is a resident or if the applicant has submitted evidence of an emergency situation. Ms. Battle stated that obviously we are in an emergency situation and she anticipates getting applications from individuals that have met all requirements except the exam. She stated that the law does not specify which examination. She stated that testing sites for NAPLEX and MPJE are down and individuals will have an impossible time now meeting the exam requirements. She further stated that the Board will have to decide how it would like to proceed with the graduates and how it wants to address that as tests cannot be administered.

Mr. Prather commented that he had an opportunity to speak to Judy Gardner, who has been in contact with Mercer University, and found out from them that all the schools of pharmacy have the capability to conduct online testing. Mr. Brinson stated that he has been receiving numerous calls from hospital pharmacy directors that have interns that are getting through with their rotations. He stated that he has been responding to inquiries by stating that as of right now the Board is not sure what will happen or how it will test. Mr. Prather requested Mr. Lacefield research this matter and report back to the Board on alternatives. Mr. Lacefield responded by stating that he has reached out to all schools. He stated that Mercer, the University of Georgia, and PCOM will confer their students in May. He further stated that there will be 362 candidates between the three schools. Mr. Lacefield stated that he also reached out to an individual that does testing for NABP and all of their U.S. sites are closed. He commented that the University of Georgia has suspended all class activity through the summer and they do not anticipate having the students back on campus until August. Mr. Lacefield stated that the schools are now doing online education and online testing and they do have the resources to do that. He stated that the Board

would have to consider using the school's resources and maybe the school being more involved in the exam than has been the case in the past. Mr. Lacefield stated the alternative would be acquiring software packages so the Board can administer the exam. He stated that the schools can help as they have the means to test candidates. He added that the Errors and Omissions portion can be given in online format; however, the calculations would be more difficult to handle with online formatting. Mr. Lacefield stated that the patient profile interviews could be done through online format the same way as how the Board is conducting this meeting now or through Zoom. President Harris asked if the online test would be an open book test if the candidate is not at the testing site. Mr. Lacefield responded by stating that there are some schools that have software by which the camera does not allow the candidate to look away from the screen or open any tabs on the computer. He stated that PCOM requires the student to have two devices; a computer and a phone or another device with camera, so the proctor is able to watch the student taking the exam. He explained that this would require more manpower than the Board has used in the past. He stated right now internet traffic is at an all-time high, so some may not have a great internet signal where he/she may be. Mr. Azzolin commented that he has taken several MPJE tests in the past and if the tests are structured like the MPJE, if he tried to researching a particular item on a test, it would cause him to completely mess up the balance of the test. Mr. Stone commented that he is unsure as to whether or not the Board should go through all of these processes to get the students tested or should it allow a temporary license and try to work out getting all of those students tested in the fall. He stated that those 362 students will be taking it along with all of those other students in the fall. He further stated that the pandemic should possibly make the Board look at revamping the exam and how it should look at things in the future. Mr. Azzolin responded by stating that maybe the Board could do both. He stated that Mr. Stone's point is very valid. Mr. Azzolin suggested the Board move forward with technology based modifications that allow the Board to do whatever it can to get people licensed or offer them the option to not take the test this way, get a temporary license and wait to take the exam at a later date. Ms. Emm commented that the Board needs to be aware that O.C.G.A. § 26-4-43 states that temporary licenses shall expire at the end of the month following the third board meeting conducted after the issuance of such license and may not be reissued or renewed. Mr. Azzolin suggested granting the temporary license, which would give the individual time to plan for taking the online exam through whatever agency. President Harris requested Mr. Lacefield assist with researching the matter and report back to the Board. Mr. Lacefield stated that he would need to know what the Board wants to include and what, if anything may not translate well to an online option. He stated the Board can discuss specifics about examination content in Executive Session.

Ms. Battle stated that she is on an email distribution list with other Executive Directors and there are states that have responded that they have not made any changes to their requirements at this time due to COVID-19. She further stated there are states that are extending intern licenses so the intern can continue working. Mr. Brinson asked if the Board is saying it will postpone June dates, or keep them open until next month, which would be a very short timeframe? President Harris responded by stating that Mr. Lacefield will research as she does not think today would be the day to say yay or nay. Ms. Battle commented that the Board will need to make a decision regarding temporary licenses. She stated that the Board has discretion to approve or deny those that demonstrate emergencies. She stated that now that we have a global emergency going on, it seems that would apply to all the candidates. Ms. Battle stated that the Board needs to decide on whether or not to let staff to issue to those temporary licenses to those who do not have an out-of-state license. She further stated that the law does allow the Board to waive, if they have not taken the exam. Ms. Battle stated that President Harris had expressed some concern with those who have not taken the NAPLEX or practical. President Harris commented that she does not think that was the spirit of the law when written. She stated that she is opposed to anyone being issued a temporary license if the individual has not taken any tests. Mr. Azzolin stated that the temporary license is only valid for three months. He continued by stating that it seems logical with a graduate from an accredited college of pharmacy in this situation to be granted a temporary license for those three months while the Board figures out if it will be able to go back to the traditional method of testing or if not, then determine alternative methods so the students are not hindered from their career or potential job opportunities. He stated that if

the individual does not graduate from an accredited college of pharmacy, he does not think they need a license, but as long as they meet all other requirements, minus the exam, to him it would seem logical to issue the temporary license as it is has a finite active state by law. During that timeframe the Board could determine if it could go back to regular testing or if there are other alternatives that are feasible. Mr. Henderson and Mr. Stone agreed. Ms. Battle asked if a temporary license would be issued regardless if the student has taken zero exams, or combination of one or two? Mr. Azzolin responded that was correct but emphasized it would be only in this scenario for that limited amount of time. Mr. Henderson commented by stating that the individual failing a previous exam and is retaking it is a different issue. He stated that if the candidate has never taken an exam, the temporary license should be granted. After further discussion, the Board suggested Mr. Prather contact NABP to see what their plan is and the Board agreed to hold off on the temporary licenses until the Board reconvenes in May.

Legal Services – Kimberly Emm

Pharmacy refusal to fill pet prescription without prescriber’s DEA number: Ms. Emm stated that the board office has received two to three emails from veterinarians that have had a non-controlled substance rejected by pharmacies because the veterinarian did not have an NPI number. Ms. Emm stated that she is aware that the Board has addressed this matter before and ultimately there is nothing the Board can do. She stated that there has to be some sort of work around where the practitioner does not have to give up his/her DEA number for something that is not a controlled substance. President Harris stated that she has dealt with this several times. She talked with representative of Walgreens who stated there is a work around in their system and apparently a lot of pharmacists are not aware of that. Mr. Azzolin asked if the Board could issue a statement saying the Board of Pharmacy agrees you do not have to have an NPI number to dispense a non-control. He further stated that if the issue has to do with the system being used, the Board could reference the individual to the business that is rejecting the prescription to solve the problem. Ms. Emm stated that she will review the Frequently Asked Questions portion of the Board’s website to see if a statement can be placed there. Director Troughton stated the Veterinarian Association can help spread the word that they can take it up with his/her individual pharmacist as there is nothing the Board can do about a pharmacist choosing to not fill the prescription.

Miscellaneous

Rule Regarding PPE for Pharmacy Staff: Mr. Prather stated he recently visited a pharmacy and the employees were working as they always have been. He stated that nobody was wearing masks or gloves. Mr. Prather stated that he decided to go to another pharmacy and there were 2-3 individuals who had on protective gear. He stated that he felt like he should bring it up to see to it that pharmacy staff are protected. Mr. Brinson agreed with Mr. Prather. He stated in his research, everyone is going by the CDC guidelines. He stated that some sites are not considered direct patient care, so they will not be given any protective equipment; however, other sites are and Mr. Brinson suggested the Board draft a rule saying protective equipment during emergencies should be provided to the pharmacies. Mr. Prather suggested putting information on the Board’s website stating all pharmacies should follow current CDC guidelines. Ms. Emm stated that CDC links specific to pharmacies are already posted on the Board’s website.

Mr. Prather made a motion and Mr. Stone seconded, and the Board voted to enter into **Executive Session** in accordance with O.C.G.A. § 43-1-19(h)(2) and § 43-1-2(k) to deliberate and to receive information on applications, investigative reports and the Assistant Attorney General’s report. Voting in favor of the motion were those present who included Carrie Ashbee, Michael Azzolin, Michael Brinson, Mike Faulk, Lisa Harris, Hal Henderson, Bill Prather and Dean Stone.

Executive Session

No votes were taken in Executive Session. President Harris declared the meeting back in Open Session.

Open Session

Mr. Prather made a motion for the Board to take the following actions:

Georgia Drugs and Narcotics Agency – Dennis Troughton

Enforcement Update

Cognizant’s Report – Mike Faulk

- GDNA Case # A33287 Accept Private Interim Consent Order
- GDNA Case # T33271 Accept Voluntary Surrender
- GDNA Case # A33297 Accept Private Interim Consent Order
- GDNA Case # A33235 Refer to the Department of Law
- GDNA Case # A33218 Change pharmacy intern license status to expired per O.C.G.A. § 26-4-47(b)
- GDNA Case # T33298 Accept Voluntary Surrender

Attorney General’s Report – Max Changus

Mr. Changus presented the following consent orders for acceptance:

- Genoa Healthcare, LLC Public Consent Order accepted
- Peach Pharmacy Public Consent Order accepted
- Terri P. Westberry Public Consent Order accepted
- N.A. Private Consent Order accepted
- Christopher Rankin Public Consent Order accepted
- S.C. Private Consent Order accepted
- Urostat Public Consent Order accepted
- D.G.H. Private Consent Order to be accepted and signed with express permission upon receipt of the original.
- P.D.S. Public Consent Order to be accepted and signed with express permission upon receipt of the original.
- T.G.K. Private Consent Order to be accepted and signed with express permission upon receipt of the original.
- C.F. Public Consent Order to be accepted and signed with express permission upon receipt of the original.
- C.V.S. Public Consent Order to be accepted and signed with express permission upon receipt of the original.

Mr. Changus presented the following Cease & Desist order for acceptance:

- C.A.V.U.M.P. Accepted

Mr. Changus discussed administrative processing of board orders. The Board recommended accepting upon receipt, consent orders where the cases have previously been discussed and a disposition determined by the Board.

Mr. Changus discussed the following cases:

- M.C. Update provided
- M.M.I.S. Close case with no action
- B.D. Close case with no action
- K.P.W.A.M.O.P. Close case with no action
- J.S. Board authorized Mr. Changus to draft a consent order
- H.S. Close case with no action

Executive Director's Report – Tanja Battle

- Complaint Follow Up: L.C. The Board directed staff to respond by stating the Board revisited the issue and is standing by its initial decision.
- Heather M. Gasaway Temporary Pharmacist Approved application

The Board discussed the upcoming June exam.

Legal Services – Kimberly Emm

The Board recommended giving staff administrative authority to grant requests for application extensions if the applicant is unable to take the examination due to the COVID-19 pandemic.

Mr. Brinson seconded and the Board voted unanimously in favor of the motion.

There being no further business to discuss, the meeting was adjourned at 1:02 p.m.

The next scheduled meeting of the Georgia Board of Pharmacy will be held via conference call on Wednesday, May 6, 2020 at 9:00 a.m., at the Department of Community Health’s office located at 2 Peachtree Street, N.W., 6th floor, Atlanta, GA 30303.
