INSTRUCTIONS FOR APPLICANTS IN THE STATE OF GEORGIA TO OBTAIN FINGERPRINT FOR A BACKGROUND CHECK

The Georgia State Board of Pharmacy requires a fingerprint background check on all applicants. The Georgia Bureau of Investigation (GBI) awarded Identogo by IDEMIA the contract to provide a service for electronic submission of fingerprints for Georgia applicants. The service, Identogo by IDEMIA decreases the need for submitting hard-copy fingerprint cards to obtain an applicant's criminal history background check. Identogo by IDEMIA print sites are strategically located throughout the State of Georgia.

The criminal history results will be available to the Georgia State Board of Pharmacy after the applicant has been fingerprinted, and the prints are received by the GBI, Georgia Crime Information Center (GCIC).

The fingerprint background check process is simple and easy to follow.
