

GEORGIA BOARD OF PHARMACY
Board Meeting
2 Peachtree Street, NW, 5th Floor
Atlanta, GA 30303
July 10, 2019
9:00 a.m.

The following Board members were present:

Bill Prather, President
Lisa Harris, Vice-President
Vicki Arnold
Michael Brinson
Mike Faulk
Hal Henderson

Staff present:

Tanja Battle, Executive Director
Eric Lacefield, Deputy Executive Director
Dennis Troughton, Director, GDNA
Michael Karnbach, Deputy Director, GDNA
Max Changus, Assistant Attorney General
Kimberly Emm, Attorney
Brandi Howell, Business Support Analyst I

Visitors:

Laura Ko, Shepherd Apothecary
Helen Sloat, Kaiser Permanente/Hemophilia of GA
Stephen Georgeson
John Lee, Publix
Greg Reybold, GPhA
Ngan, Nguyen, GHA
Keri Conley, GHA
John Smith, Shepherd Center
Rena Estep, Walgreens
Savannah Cunningham, Mercer Student
Bethany Sherrer, MAG
Amanda Roberson, Eldercare Pharmacy
Stephanie Kirkland, Eldercare Pharmacy
Shea Ross-Smith, KP
Lauren Pollow, JL Morgan Co.
John Rocchio, CVS Health
Crystal Slaughter, Sereno Verde
Blair Curless
Diane Sanders, Kaiser Permanente
Lynn Echols, Black Bear/UHS
Scottie Barton, Riverside Pharmacy
Jack Burns, Capsa Healthcare
Jodie Vogt, Capsa Healthcare
Alexis Wilson

Open Session

President Prather established that a quorum was present and called the meeting to order at 9:05 a.m.

Approval of Minutes

Vicki Arnold made a motion to approve the Public and Executive Session minutes from the June 12, 2019 meeting. Michael Brinson seconded and the Board voted unanimously in favor of the motion.

Report of Licenses Issued

Mike Faulk made a motion to ratify the list of licenses issued. Vicki Arnold seconded and the Board voted unanimously in favor of the motion.

Petitions for Rule Waiver or Variance

Michael Brinson made a motion to grant the rule waiver petition from Effingham Health System, PHRE010321. Mike Faulk seconded and the Board voted unanimously in favor of the motion.

Correspondence from Sandra B. Jones, Trumarx Drugs

The Board considered this correspondence regarding Trumarx Drugs, which is undergoing construction in preparation of USP 800. In her letter, Ms. Jones states that she has purchased the building next door to house the compounding area with the intent to connect the buildings; however, the deadline for USP implementation will happen prior to the buildings being able to be joined. Additionally, she requests the Board allow her to operate for approximately one year with the buildings not joined under her current PIC license since there is such a small space between the buildings. Mike Faulk made a motion to deny the request. Hal Henderson seconded and the Board voted unanimously in favor of the motion.

Correspondence from Marty Avera

The Board considered this request for a provisional license. Mike Faulk made a motion to deny the request. Lisa Harris seconded and the Board voted unanimously in favor of the motion.

Correspondence from Christopher Guthrie, Quarles & Brady, LLP

The Board considered this correspondence regarding a non-resident DME supplier. In his letter, Mr. Guthrie states that the company he represents was recently sent a notice from the Board stating that, as a condition for licensure, it must provide evidence that it “maintains an office or place of business within the state” as required in O.C.G.A. § 26-4-51(b)(2). Additionally, Mr. Guthrie asks the following questions:

- What are the minimum requirements for the office our client must maintain in the state?
- Would it be sufficient to have an unstaffed office with a computer, to which the GDNA would be provided access for any inspections?

Lisa Harris made a motion to direct staff to respond by stating there is no statutory or rule provision defining “Office” or “Place of Business”. Additionally, the Board suggest Mr. Guthrie use his best judgement in complying with the letter in the spirit of the law. Michael Brinson seconded and the Board voted unanimously in favor of the motion.

Georgia Drugs and Narcotics Agency – Dennis Troughton

Director Troughton reported that GDNA has conducted 379 investigations and received 2128 complaints for FY2019.

Director Troughton reported that Special Agent Ron Acoff successfully completed and graduated from the Police Academy and Special Agent Eric Durham just started the Police Academy. Director Troughton stated that GDNA has a total of 12 agents at this time.

Attorney General’s Report – Max Changus

No report.

Executive Director’s Report – Tanja Battle

Continuing Education Report: Lisa Harris made a motion to deny the course titled, “CERTAIN: Checklist for Early Recognition and Treatment of Acute Illness & Injury” submitted by Emory Healthcare. Vicki Arnold seconded and the Board voted unanimously in favor of the motion. In the same motion, the

Board stated that if Emory Healthcare obtains ACPE approval for the course, the Board would accept the course.

Renewals: Ms. Battle reported that out of 27,000 registrants, 16,387 pharmacy technicians renewed to completion. Ms. Battle commended staff for working efficiently to complete such a task. She stated that the Board will note, in Executive Session, the number of items that have been worked on by staff. President Prather asked Ms. Battle to discuss how the board office communicates with technicians and pharmacists. He stated that he knows staff go to great lengths to contact registrants/licenseses. Ms. Battle responded by stating that staff sends deficiency letters to those that have a hold notice placed on his/her renewal application. She explained that the hold notice may be regarding a criminal history or a sanction that has been reported since the last renewal, etc. Ms. Battle stated that the individual must submit a letter of explanation and any pertinent court documents related to that situation. President Prather responded that the Board appreciates all of the staff's hard work. President Prather stated he has no sympathy for individuals who say they did not have time to renew or they did not know it was time to renew. He explained that if that is how someone makes his living, he would make sure he keeps up with when it is time to renew his license.

Technician Education: Mr. Brinson discussed technician education and PTCB Certification eligibility requirements that will change starting January 2020. Mr. Brinson discussed certified technicians having to complete 20 hours of continuing education every two years. He stated the consensus is to require regular technicians complete 20 hours of continuing education as well. Mr. Brinson suggested that when the rule is drafted, the Board require 20 hours of continuing education. He discussed the possibility of requiring a registered technician to become certified within two years of being registered, which would be at renewal. Mr. Brinson stated that the Committee will be meeting in the future.

Legal Services – Kimberly Emm

No report.

Miscellaneous

Rule 480-36-.03 Personnel and Supervision: Ms. Emm discussed the proposed language submitted by CVS. She explained that this was a request that came out of a denied rule waiver and the Board assigned Vice-President Harris and Mr. Faulk to review the rule. Mr. Faulk stated that he is not opposed to the change if the Board deems it necessary. He stated the main thing they are trying to accomplish is to make sure people receive their medications accurately and that they are checked by as many people as possible. Vice-President Harris commented that she does like that it says that the “pharmacist on duty at the primary dispensing pharmacy shall have access to the hard copy image of the original prescription and shall maintain his/her professional judgement in dispensing the final product.”

Mr. Henderson commented that the Board discussed this at great length in November and everyone was in favor except for Mr. Faulk. He stated that he is not sure what has happened since then, but in today's world, if there is more than one pharmacist, one is filling prescriptions and one is checking. He stated he does not understand why there is a double standard. He stated if it is that important to safety, then the Board needs to go back and change everything. Mr. Henderson stated that he is questioning whether or not this is even needed. He further stated that he believes the Board is setting itself up and is being hypocritical. Mr. Faulk responded that if the consensus is that it is important, then he is all for it. He is concerned about pharmacist liability. Mr. Henderson commented that he has been doing this for 25 years and there has never been a problem distinguishing where the responsibility lies.

Vice-President Harris stated that if nobody has ever worked in a chain store, it is one of the most stressful places one can work. She stated that she believes that if the Board relaxes this by saying the dispensing pharmacist does not need to check it, it will help. Discussion ensued. Director Troughton commented that

for GDNA, if there is an error, the Board will be informed of any individual that touched it, and if the pharmacy personnel cannot provide that information, that is another violation the Board can look at because all individuals are supposed to be identified. He added that from an investigation standpoint, the Board will know who touched it from beginning to end and decide who made the error. Mr. Henderson commented that in regards to compliance, he does not think there is a system that does not identify the person entering the information and the person checking it too. He stated that bar code scanning and all the other things out there are utilized to diminish errors.

President Prather commented that he is not for or against this rule amendment. He stated that from the individuals that want this, it will free up hours for pharmacists to spend with the patients. President Prather stated he will personally go around to pharmacies and ask them how much extra time they are being allotted to speak to patients. He stated that if he sounds skeptical about that, it is because he is.

Mr. Changus commented that some of the concerns about liability is a question for others. He stated the Board's job is to protect the public. He asked the Board how this change helps and what the impact to the pharmacy community is. He asked the Board if this places an unreasonable burden? Mr. Changus stated it seems to be semantic change except for viewing or verifying the hard copy. He stated the pharmacist is responsible for reviewing the accuracy of the dispensed product. He asked if this is the best way to protect the public and is this the least onerous way to proceed. Mr. Changus stated that if the Board was comfortable with it, it can vote to amend.

Lisa Harris made a motion to post Rule 480-36-.03 Personnel and Supervision. Mike Brinson seconded President Prather abstained. Discussion was held by Mr. Henderson, who stated he had an issue with item (4). Vice-President Harris read item (4):

The pharmacist on duty at the primary dispensing pharmacy shall be responsible for assuring the accuracy of ~~the all-filled or~~ dispensed prescriptions ~~products including those prepared~~ processed through the use of remote prescription drug order processing. ~~This shall include, but not be limited to, viewing and verifying the hardcopy or electronic prescription.~~ The pharmacist on duty at the primary dispensing pharmacy shall have access to the hardcopy image of the original prescription and shall maintain his/her professional judgment in dispensing the final product.

Mr. Rocchio commented that the pharmacist is still responsible for making sure the product in the bottle matches the label. He stated that the Board will want to discipline the pharmacist for acting outside of his/her clinical responsibilities. Ms. Arnold stated that if there is an overdose, then the second checking pharmacist is also held responsible. Mr. Rocchio responded that the Board would need to decide who made the error. President Prather asked Mr. Rocchio in one 12-hour shift, how many minutes would this allow the pharmacist to assist the patient? Mr. Rocchio responded that he did not have that information available; however, they have been doing this in Chattanooga and there is a clear delineation between the pharmacists there and here. He stated it is the pharmacist at the low volume location that will now get tech support because of additional work. He added that there are some things coming this way that CVS has been doing in Houston that he would love to keep the Board apprised of. Ms. Estep commented that she works with Walgreens and practiced in Tennessee before working in Georgia. She stated to Mr. Rocchio's perspective, if she became busy, she could call her partners down the street for help and it helped relieved some of the team's stress. Vice-President Harris responded that this is a whole deeper issue. Mr. Rocchio discussed another possible tweak to the rule. President Prather responded that it would need to be another discussion for another day. Vice-President Harris thanked Mr. Rocchio for his input. Mr. Rocchio thanked the Board for working with CVS on this matter. With no further discussion, the motion passed.

Rule 480-36-.03 Personnel and Supervision

- (1) The primary dispensing pharmacy shall have a licensed pharmacist on site during business hours and his/her shall duties shall include the verification of the validity of all prescriptions. Such pharmacist shall be responsible for obtaining and recording all information needed. This shall include but not be limited to the following patient information: biographical information, medication history, drug allergies, and other information as required. Pharmacy technicians and pharmacy interns/externs may assist a pharmacist located at the primary dispensing pharmacy with remote prescription drug order processing. Such pharmacies shall comply with Georgia laws and rules set forth pertaining to ratios and the supervision of pharmacy technicians and pharmacy interns/externs.
- (2) The secondary remote entry pharmacy shall have a pharmacist on duty, licensed in this State, who is physically present and personally supervising all pharmacy activities. Remote prescription drug order processing in a retail pharmacy without the direct supervision of a pharmacist is prohibited.
- (3) Pharmacy technicians and pharmacy interns/externs may assist a pharmacist located at the secondary remote entry pharmacy with remote prescription drug order processing. Such pharmacies shall comply with Georgia laws and rules set forth pertaining to ratios and the supervision of pharmacy technicians and pharmacy interns/externs.
- (4) The pharmacist on duty at the primary dispensing pharmacy shall be responsible for assuring the accuracy of ~~the all filled or~~ dispensed prescriptions ~~products including those prepared~~ processed through the use of remote prescription drug order processing. ~~This shall include, but not be limited to, viewing and verifying the hardcopy or electronic prescription.~~ The pharmacist on duty at the primary dispensing pharmacy shall have access to the hardcopy image of the original prescription and shall maintain his/her professional judgment in dispensing the final product.
- (5) The pharmacist on duty at the secondary remote entry pharmacy shall be responsible for assuring the accuracy of prescriptions for which he/she performed or supervised remote prescription drug order processing. This responsibility shall exclude the compounding, preparation, dispensing, and counseling for prescriptions for which he/she has performed remote prescription drug order processing. The pharmacist shall verify the data entered into the computer system is consistent with the prescription. The pharmacist shall conduct a drug regimen review for each prescription. Any activity requiring the exercise of professional judgment shall be performed by the pharmacist on duty and shall not be delegated to pharmacy technicians. The pharmacist on duty at the secondary remote entry pharmacy shall be responsible for verification of all activities performed by pharmacy technicians, or pharmacy interns/externs.

A motion was made by Mike Faulk, seconded by Hal Henderson, and the Board voted that the formulation and adoption of this rule amendment does not impose excessive regulatory cost on any licensee and any cost to comply with the rule amendment cannot be reduced by a less expensive alternative that fully accomplishes the objectives of the relevant code sections.

In the same motion, the Board also voted that it is not legal or feasible to meet the objectives of the relevant code sections to adopt or implement differing actions for businesses as listed at O.C.G.A. § 50-13-4(a)(3)(A), (B), (C) and (D). The formulation and adoption of this rule amendment will impact every licensee in the same manner, and each licensee is independently licensed, owned and operated and dominant in the field of pharmacy.

Vicki Arnold made a motion and Hal Henderson seconded, and the Board voted to enter into **Executive Session** in accordance with O.C.G.A. § 43-1-19(h)(2) and § 43-1-2(k) to deliberate and to receive information on applications, investigative reports and the Assistant Attorney General's report. Voting in favor of the motion were those present who included Vicki Arnold, Michael Brinson, Mike Faulk, Lisa Harris, Hal Henderson and William Prather.

Georgia Drugs and Narcotics Agency – Dennis Troughton

Open Session

Vicki Arnold made a motion for the Board to take the following actions:

Georgia Drugs and Narcotics Agency – Dennis Troughton

- GDNA Case #A32600 Update provided

Attorney General’s Report – Max Changus

Mr. Changus presented the following consent order for acceptance:

- H.K.P. Private Consent Order accepted

Mr. Changus discussed the following cases:

- M.C. Update provided

Executive Director's Report – Tanja Battle

- D.B. Correspondence

The Board directed staff to respond by stating that the matters of when a pharmacy stocks any product or the quantity it stocks are not determined by the Board's regulations. If the individual has concerns regarding how or when a physician is prescribing a medication, he/she may want to reach out to the Georgia Composite Medical Board for guidance.

Legal Services – Kimberly Emm
