It is recognized that some practitioners may be able to receive drugs or devices directly under their own practice acts. However, a clinical laboratory is not mentioned in the Pharmacy Practice Act and therefore the Board of Pharmacy will not provide comment on the capabilities and limitations of such a facility.

Georgia Drugs and Narcotics Agency – Dennis Troughton

Director Troughton reported that GDNA has conducted 358 investigations and received 2008 complaints for FY2019.

Director Troughton reported that Special Agent Ron Acoff will be graduating from the Police Academy on Friday and Special Agent Eric Durham will be starting the Police Academy in July. Director Troughton stated that GDNA should have all of its agents P.O.S.T. certified and working their territories by the end of September.

Director Troughton reported that GDNA will not be receiving funds the legislature previously approved to obtain a data management system. GDNA received a letter from the Governor's Office regarding such.

Director Troughton spoke to the Board about USP 800 and the upcoming GPhA Conference. Director Troughton stated GDNA has spent many resources getting its agents trained on the sterile compounding and USP 800 training. He stated that he thinks the general thought is "December 1, 2019 USP 800 will be in effect and GDNA will shut us down". Director Troughton stated it is a real concern for many pharmacies. He stated that he plans on telling people at the convention that GDNA's duties do not stop just because USP 800 becomes effective. Director Troughton stated that GDNA's intention is to continue to conduct inspections and if the facility is not in compliance, that will be determined on a case-by-case basis as to when GDNA will return for a follow up inspection. He added that this is a huge change and GDNA's approach will be just like it has been with all the pharmacies, which is to get into compliance and go from there. He stated when he is asked if the facility has to comply with USP 800, his response is yes. Ms. Arnold commented that they know from literature that there are shortages of equipment to bring the pharmacies into compliance with USP 800, and for those facing road blocks that they cannot do anything about, she hopes the Board will take that into consideration. Director Troughton responded by stating that is the purpose of the action plan and that is their time to say why they cannot comply. He stated that GDNA gives them a chance to complete their action plan before the matter is brought before the Board. Director Troughton stated he has not heard about the issue with the equipment before. President Prather commented that this will be one of the questions that will be coming up at the meeting. Director Troughton added that GDNA has been preparing for this for a year.

Attorney General's Report – Max Changus

No report.

Executive Director's Report – Tanja Battle

Continuing Education Report: Report presented. Lisa Harris made a motion to ratify the below continuing education programs approved since the previous meeting. Vicki Arnold seconded and the Board voted unanimously in favor of the motion.

Date of Program	Hours	Sponsoring Group	Program Title	CE Code
05/09/19	.5	Kaiser Permanente	Non-Opioid Strategies for Managing Chronic Pain in a Setting of an Opioid Epidemic	2019-0012

Renewals: Ms. Battle reported that there are 10, 218 pharmacy technicians that have renewed; however, there are a total of 27,149 actively registered. Ms. Battle expressed her concern regarding the procrastination of technicians renewing. She requested the Board and guests to please mind them to renew. Ms. Battle stated that the board office sent a 2nd renewal notice, but if the individual waits until the last minute, something could arise and he/she may not get renewed.

Miscellaneous

Mr. Prather reported that he attended NABP in Indianapolis this was Minneapolis recently and they are having a Task Force on Technician Education. Mr. Henderson also attended the meeting. Mr. Henderson commented that each state has the same issues and it was interesting the different ways people try to solve them. Director Troughton commented to the new board members, that some boards get hammered about issues; however, this board takes action as quickly as possible. President Prather stated that one thing he enjoys the most about attending the NABP meeting is they used to break it down into regions and you can ask the other board members if they are having issues with specific scenarios; however, they did not have the opportunity to do that this time.

Legal Services – Kimberly Emm

No report.

Hal Henderson made a motion and Mike Faulk seconded, and the Board voted to enter into **Executive Session** in accordance with O.C.G.A. § 43-1-19(h)(2) and § 43-1-2(k) to deliberate and to receive information on applications, investigative reports and the Assistant Attorney General's report.
