Appearance

Appearance from Heather Lindell, PharmD, University of Georgia, Veterinary Teaching Hospital: Dr. Lindell presented information to the Board regarding Veterinary Feed Directive Drugs (VFD). Following Dr. Lindell's presentation, Ms. Wray asked if the drug is listed as a dangerous drug under Georgia law? Dr. Lindell responded yes. Ms. Wray asked if Georgia puts it under the dangerous drug act, how is it permissible to mix it themselves? Dr. Lindell responded that it is ordered directly from the sponsor or from VFD from the vet. The feed mill can order and mix it up.

Ms. Wray stated that some of the drugs listed in the presentation are not listed in dangerous drug act and some are. So we would have an issue for purposes of Georgia would have to follow dangerous drug act if you are a licensee. This needs to be addressed. If not used in humans, they are probably not on the list. President Jones thanked Dr. Lindell for the presentation.

Bob Warnock made a motion to post Rule 480-24-.01 Definitions. Jim Bracewell seconded and the Board voted unanimously in favor of the motion.

Rule 480-24-.01 Definitions.

For purposes of these Rules and Regulations, the following definitions apply:

- (a) Board. Board shall mean the Georgia State Board of Pharmacy.
- (b) Crisis Stabilization Unit (CSU). Crisis Stabilization Unit (CSU) shall mean a medically-monitored, short-term, residential program which is an emergency receiving/evaluation facility that provides 24/7 psychiatric stabilization and detoxification services licensed by the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD).
- ~~(b)~~ (c) GDNA. GDNA shall mean the Georgia Drugs and Narcotics Agency.
- ~~(c)~~ (d) Hospice emergency drug kits. A hospice emergency drug kit shall mean an emergency drug kit placed by a provider pharmacy in a hospice licensed by the Department of ~~Human Resources~~. Community Health.

(d) (e) Unit dose. A unit dose is a single dose of a medication(s), which is individually packaged, sealed, and properly labeled to maintain the integrity and the identity of the drug, and patient²-ready at the time of dispensing by the pharmacist.

The Board discussed Rule 480-24-.08 Crisis Stabilization Unit Emergency Drug Kits and recommended tabling this rule to allow additional time to review.

A motion was made by Jim Bracewell, seconded by Bob Warnock, and the Board voted that the formulation and adoption of this rule amendment does not impose excessive regulatory cost on any licensee and any cost to comply with the proposed amendment cannot be reduced by a less expensive alternative that fully accomplishes the objectives of the relevant code sections.

In the same motion, the Board also voted that it is not legal or feasible to meet the objectives of the relevant code sections to adopt or implement differing actions for businesses as listed at O.C.G.A. § 50-13-4(a)(3)(A), (B), (C) and (D). The formulation and adoption of this rule amendment will impact every licensee in the same manner, and each licensee is independently licensed, owned and operated and dominant in the field of pharmacy.

Mike Faulk made a motion and Jim Bracewell seconded, and the Board voted to enter into **Executive Session** in accordance with O.C.G.A. § 43-1-19(h)(2) and §43-1-2(k) to deliberate and to receive information on applications, investigative reports and the Assistant Attorney General's report. Voting in favor of the motion were those present who included Vicki Arnold, Jim Bracewell, Mike Faulk, Lisa Harris, Chris Jones, Laird Miller, Bill Prather and Bob Warnock.
